

LITTLE LEIGH VILLAGE DESIGN STATEMENT HIGHWAYS AND STREET FURNITURE GUIDELINES 2

Railings/boundaries – Reflect existing materials and be in keeping with rural environment

Cheshire railings should be maintained in good order and extended if appropriate

Minimise visual clutter by avoiding more overhead lines and site any new poles or masts carefully.

Retain traditional cast iron road signs and mileposts and maintain painted in black and white.

Any new signage to be in keeping with the environment and carefully sited, using existing structures if possible to avoid visual clutter. Avoid any lighting of new signs.

Street lighting – Any new or replacement lights to be in keeping and be low energy and minimise light pollution. Avoid visual clutter by using existing poles where possible. Consider using solar lights.
